

P. SANNITH

BACKEND ENGINEER & DATA ANALYST

sunnysunnit@gmail.com | +91 7498461916 | GitHub: Sannith-Hack | Warangal, Telangana

PROFESSIONAL SUMMARY

Highly motivated Backend Engineer and Data Analyst with a 440+ day coding streak. Specialized in optimizing database logic and server-side performance. Expert in building secure, scalable systems using modern frameworks and cloud infrastructures. Dedicated to bridging the gap between scalable architectural design and actionable data insights.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, C++, SQL, Rust, R

Web Stack: React, Next.js, Node.js, Vite, Tailwind CSS, HTML5, CSS3

Mobile & Tools: React Native (iOS/Android), Docker, GitHub, Linux

Cloud & DB: AWS, Firebase, Supabase, MySQL, PostgreSQL

WORK EXPERIENCE

Agentic AI Virtual Intern – Brain O Vision Solutions Jan 2026 - Present

- Developing AI-driven automation frameworks and agentic workflows to optimize organizational efficiency and decision-making.

AWS Cloud Intern – Orbit Learning Pvt Ltd May 2025 - Jun 2025

- Deployed and managed scalable WordPress hosting using LAMP stack on AWS.
- Optimized cloud computing resources for high-availability performance and seamless user traffic scaling.

FEATURED PROJECTS

KUCET College Management System React, Node.js, Vercel, MySQL

- Designed an academic portal for Kakatiya University utilizing complex relational schemas to handle thousands of real-time student records and enrollments securely.

NCC Air Wing Dashboard Supabase, React

- Developed a comprehensive student information dashboard leveraging Supabase for efficient, real-time database management and analytics monitoring.

TODO LIST Mobile Application React Native, TypeScript, Android/iOS SDK

- Built a high-performance cross-platform task manager incorporating native device SDKs for a unified and seamless user experience.

EDUCATION

DEGREE/SPECIALIZATION	INSTITUTE	TIMELINE
B.Tech in Computer Science and Engineering	Kakatiya University (KUCE&T)	2023 - 2027
Intermediate (MPC)	Geesukunda Jr College	2021 - 2023
10th Grade	Vikas English School	Grad. 2021

CERTIFICATIONS & ACHIEVEMENTS

- Consistency:** Maintained a 440+ Days Coding Streak, demonstrating persistent daily growth and active repository contributions.
- AI & Data:** Completed 5-Day AI Agents Intensive Course with Google and earned a Graduate Certificate in Data Analytics from PI LABS (2025).
- Virtual Internships:** Successfully completed Deloitte Data Analytics & TATA Cybersecurity simulations.
- Badges & Distinctions:** Earned Kaggle Badges (Vampire, Code Forker, Python Coder) and GitHub Achievements (Pair Extraordinaire, Pull Shark)
